17   <h2>Animal Medicines Australia Report</h2>
18
19   <p>
20     A report from Animal Medicines Australia (AMA) has found that many Australians took the opportunity to introduce a
21     pet into their household during the pandemic. Their survey indicated that there was a significant increase in the
22     percent of households taking in a new dog, fish or bird.
23   </p>
24
25   <p>
26     Their research also indicated that pets had a number of positive influences on their lives such as:
27   </p>
28
29   <ul>
30     <li>Companionship</li>
31     <li>Better mental health</li>
32     <li>Joy and happiness</li>
33   </ul>
34
35   <p>
36     With the increase in pet ownership, the AMA are encouraging policy makers to consider the needs of companion
37     animals and their owners when considering rental, strata and body corporate regulations as well as accepting animals
38     in public places and transport.
39   </p>
